2. MANAGEMENT DISCUSSION AND ANALYSIS

The company manufactures and markets a range of Emulsion Polymers - Synthetic Latexes and Synthetic Rubber.

I. CURRENT SCENARIO.

Your Company is one of the leading producers of polymer products namely, Synthetic Latexes (Vinyl Pyridine Latex, Carboxylated Styrene Butadiene Latex, Acrylic Latex, Nitrile Latex etc.) and also Synthetic Rubber (High Styrene Rubber) in India. The Company has one of the broadest ranges of products in the industrial segments and caters to a wide range of industries. Company's Synthetic Latexes products are used, among other applications, for tyre cord dipping, paper and paperboard coating, carpet backing, concrete modification/water proofing, textile finishing, paints, etc.. Various grades of Synthetic Rubber find application in products such as footwear, automotive components, moulded items, V-belts, conveyor belts, hoses etc..

The Company's major raw materials are petrochemical products and its business is vulnerable to high volatility in the prices of crude oil and its downstream products.

The Company had introduced a range of Acrylics products for Paper, Construction and Carpet segments three years earlier, which have been well received in the market.

A number of steps have been taken by the management to improve the operational efficiency of the Company in different functions like marketing, human resource development, production process etc.

Your company is recipient of Total Productive Maintenance (TPM) Excellence in Consistent TPM Commitment Award- Category A by the Japan Institute of Plant Maintenance (JIPM) during the year under review. TPM has helped the company significantly in improving efficiencies in plant and in operations and rationalizing costs. During the year, your Company has successfully completed re-certification of the integrated ISO 9001, ISO 14001 and OHSAS 18001.

apcotex industries limited

The Company has been continuously upgrading its own technology through in-house research and development efforts to meet the changing needs of its customers.

II. OPERATIONS DURING THE FINANCIAL YEAR 2013-14.

During the year, the Company achieved Gross Value Sales of ₹ 33,035.43 lacs, registering a growth of **9.16%**, compared to that of the preceding year. The company exported its products worth ₹ 3,459 lacs compared to exports of ₹ 2,535 lacs during the previous year, a growth of 36%.

Overall, there was a satisfactory sales growth in the business of Synthetic Latexes. There was a sales de-growth in Synthetic Rubber business due to overall shrinking market witnessing competition from cheaper polymers as well as change in customer preferences.

There was a continuous thrust from the management to develop a strong research and development and technical service team to understand better the changing customer needs, improve product quality, and customer needs to improve product quality and introduce better controls, through technology up-gradation.

Profits before tax came-down by 7.7% to ₹ 1,665.12 lacs as compared to ₹ 1,804.16 lacs during the previous year due to higher interest and depreciation. However EBITDA increased by 17.3% from ₹ 2,350.27 lacs in the previous year to ₹ 2,756.42 lacs in FY 2014-15.

The profit after tax stood at ₹ 1,314.32 lacs as compared to ₹ 1,280.53 lacs in the previous year.

Your Directors consider Company's performance as satisfactory.

III. OUTLOOK.

The Company expects the current year to be challenging one in terms of volatilities in prices of major inputs materials. Overall growth of the economy, introduction of new products, improving market share in the domestic market and export growth, are expected to augur well for the Company.

With company's continuous endeavour to enhance efficiencies at all levels and functions, your Directors view the prospects for the financial year 2014-15 with cautious optimism.

IV. RISKS AND CONCERNS.

The Company's Board of Directors perceives the following risks as high risks areas:-

Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. (i) Basis of Accounting:

The financial statements have been prepared under the historical cost conventions and on the 'going concern' basis, with revenue recognized and expenses accounted on their accrual in accordance with Generally Accepted Accounting Principles (GAAP) in India and are in compliance with the applicable Accounting Standards notified under the Companies Act, 1956 ("the Act") read with General Circular 15 / 2013 dated September 13, 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013 other relevant provisions of Companies Act 1956.

The classification of assets and liabilities of the Company into current or non-current is based on the criterion specified in the Revised Schedule VI to the Companies Act, 1956. The Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

(ii) Use of Estimates:

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and the disclosures of contingent liabilities. Difference between actual results and the estimates are recognized in the period in which the results materialize / are known.

(iii) Fixed Assets and Depreciation / Amortization

a. Fixed Assets

Tangible fixed assets are carried at the cost of acquisition or construction, less accumulated depreciation and accumulated impairment. The cost of fixed assets includes taxes (other than those subsequently recoverable from tax authorities), duties, freight and other directly attributable costs related to the acquisition or construction of the respective assets. - i. Computer Software – Written off over a period of three years
- ii. Technical Know - how

In respect of all additions during the year depreciation is provided pro-rata on monthly basis.

c. Impairment

The carrying amounts of the Company's tangible and intangible assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated in order to determine the extent of impairment loss, if any. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The impairment loss, if any, is recognized in the Statement of Profit and Loss in the period in which impairment takes place.

apcotex industries limited

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, however subject to the increased carrying amount not exceeding the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior accounting periods

(iv) Borrowing Cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized. All other borrowing costs are expensed in the period they occur.

(v) Investments

Non-current investments are valued at cost less provision for diminution in value, if the diminution is other than temporary. Current Investments are stated at lower of cost and fair value.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss. Profit or loss on sale of investments is determined on average cost basis.

(vi) Inventory

Inventories are valued at lower of Cost and Net Realizable Value.

Raw and Packing Materials are valued at cost or market value, whichever is lower, computed on FIFO basis. The cost includes the cost of purchase and other expenses directly attributable to their acquisition but excludes duties and taxes, which are subsequently recoverable from the taxing authorities.

The finished goods inventory is valued at cost, or net realizable value whichever is lower. Cost includes material cost, conversion, appropriate factory overheads, any tax or duties and other costs incurred in bringing the inventories to their present location and condition.

Work-in-Process is valued at material cost and cost of conversion appropriate to their location in the manufacturing cycle.

Stores, Spares and consumables are valued at cost, computed on FIFO basis. The cost includes the cost of purchase and other expenses directly attributable to their acquisition but excludes duties and taxes that are subsequently recoverable from the taxing authorities, if any.

Damaged, unserviceable and inert stocks are adequately provided wherever considered necessary.

(vii) Excise Duty :

Excise Duty paid on goods manufactured by the Company is accounted for at the time of dispatch of goods from the factories.

Excise Duty payable on goods manufactured is accrued for stocks held in factories at the year-end. Excise Duty paid/payable on goods manufactured by the Company and remaining in stock, is included in the value of Finished Goods. Excise duty related to the difference between the closing stock and opening stock of Finished Goods is recognized in the Statement of Profit and Loss.

(viii) Transactions in foreign exchange

(a) Initial recognition:

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction.

(b) Measurement of foreign currency items at the Balance Sheet date:

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non-monetary items are recorded at the exchange rate prevailing on the date of the transaction. The Exchange Rate Difference and the forward premium on the loan taken for capital assets are being capitalized along with Interest till the date of commissioning of the said capital assets.

In case of other forward exchange contracts, the difference between the transaction rate and the rate on the date of contract is recognized as exchange difference and the premium paid on forward contracts is recognized over the life of the contract. However forward exchange contract relating to fixed assets have been included in the carrying amount of fixed assets.

(ix) Forward Exchange Contracts – Hedging

The company uses forward exchange contracts to hedge its foreign exchange exposures relating to the underlying transactions and firm commitments. The premium on forward contracts taken for purchase of fixed assets are capitalized as the cost of the asset and the premium on other contracts is recognized over the life of the contract in the Statement of Profit or Loss.

(x) Employees' Benefits

(a) Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

(b) Post-employment benefits:

Defined contribution plans :

Defined contribution plans are Employee State Insurance Scheme for eligible employees and Government administered Pension Fund Scheme for all employees, Provident Fund Scheme administered by Government, and Superannuation Scheme for eligible employees. The Company's contribution to defined contribution plans are recognised in the Statement of Profit and Loss in the financial year to which they relate.

Actuarial gains and losses are recognized immediately in the Statement of Profit and Loss. The fair value of the planned assets is reduced from the gross obligation under the defined benefit plan, to recognize the obligation on net basis.

Other long-term employee benefits

Entitlements to annual privilege leave are recognized when they accrue to employees. Privilege leave can be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The Company determines the liability for such accumulated leaves using the Projected Accrued Benefit method with actuarial valuations being carried out at each Balance Sheet date.

(xi) Research and Development

- (a) Capital expenditure is shown separately under respective heads of fixed assets.
- (b) Revenue expenses are included under the respective heads of expenses.

(xii) Taxes on Income

Tax expense comprises current and deferred tax.

Current tax is measured at the amount expected to be paid in accordance with the Income-tax Act, 1961.

Deferred tax is recognized, subject to the consideration of prudence, on timing differences, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax assets are not recognized on unabsorbed depreciation and carry forward of losses unless there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. The carrying amount of deferred tax assets/liabilities are reviewed at each balance sheet date. The tax effect is calculated on the accumulated timing difference at the year-end, based on the tax rates and laws enacted or substantially enacted on the balance sheet date.

Minimum Alternate Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period in which such credit can be carried forward for set-off.

Provisions are not discounted to their present values and are determined based on management estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company.
