COMPANY AT A GLANCE

Apcotex is one of the leading producers of Synthetic Rubber (NBR & HSR) and Synthetic Latex (Nitrile, VP latex, XSB & Acrylic latex) in India. The company has one of the broadest range of Emulsion Polymers available in the market today. The various grades of Synthetic Rubber find application in products such as Automotive Components, Hoses, Gaskets, Rice De-husking Rollers, Printing and Industrial Rollers, Friction Materials, Belting and Footwear. Apcotex's range of Latexes are used for Paper / Paperboard Coating, Carpet Backing, Tyre Cord Dipping, Construction, Gloves-examination, surgical and industrial use etc.

The company believes in implementing best practices across all departments and adhering to high quality, safety and environmental standards. Its state-of-the-art manufacturing plants are strategically located on the western coast of India. Over the past several years, Apcotex has developed a strong Research & Development base, which has enabled to develop, manufacture and export products and compete effectively against global players. Through its technical service team and well-equipped application laboratory, the company believes in providing value added services to enable customers to constantly improve the quality of their final product. Apcotex has significant global presence and for last few years has done business in all continents and several countries.

Apcotex has been awarded the prestigious "TPM Excellence Award, Category A" and "TPM Consistency Award" by the Japan Institute of Plant Maintenance (JIPM), Japan.

Apcotex, an ISO 9001:2015 certified company, is also certified for ISO 14001:2015 (Environmental Management Systems) and ISO 45001:2018 (Occupational Health and Safety Management Systems). Apcotex is a Responsible Care certified company. Apcotex Industries Limited is headed by Mr. Atul C. Choksey, former Managing Director of Asian Paints Limited.

EVOLUTION

1980

Started as a division of Asian Paints. Pioneered the manufacturing of Vinyl Pyridine latex and Carboxylated Styrene-Butadiene latex in India.

1991

Constituted as a Public Limited Company listed on stock exchanges as Apcotex Lattices Limited.

1998

Started High Styrene Rubber production with 10,000 MT p.a. (dry) capacity.

2005

Name changed to Apcotex Industries Limited.

2009

Entered Acrylic Emulsion business to exploit synergies with other products and markets.

2013

Installed capacity of saleable latex increased at Taloja from 40,000 MT p.a. to 55,000 MT p.a. (wet).

2016

Completed acquisition of Omnova Solutions Indian business of Nitrile Rubber of 16,000 MT p.a. (dry) and High Styrene Rubber to create synergy.

BOARD OF DIRECTORS

MR. ATUL C. CHOKSEY

Chairman

He is a Chemical Engineer from the Illinois Institute of Technology, Chicago, USA. He joined Asian Paints (India) Limited as Junior Executive in 1973 and was subsequently appointed as Whole-time Director with effect from May 1979. He served as the Managing Director of Asian Paints Limited from April 1984 to August 1997. Over the years he has served on the Boards of Marico Limited, Finolex Cables Limited, Blue Star India Ltd. and the Asian Board of the Wharton Business School. He has served as the President of the Indian Paint Association and Bombay Chamber of Commerce and Industry (BCCI) as well as Deputy President of the Associated Chamber of Commerce and Industry of India. He is a member of Young Presidents' Organization (YPO). He is currently a Trustee of Shree Mahalakshmi Temple Trust located in Mumbai and an Independent Director on the Board of Ceat Ltd.

DR. SWAMINATHAN SIVARAM

Independent Director

He obtained his MSc degree in chemistry from IIT-Kanpur followed by PhD and DSc degrees from Purdue University, W. Lafayette, Indiana, USA. He was the Director of CSIR-NCL from 2002 -10 and is presently an INSA Honorary Scientist and Honorary Professor Emeritus at the Indian Institute of Science Education and Research, Pune. He has over fifty years of R&D experience, both in industry and academia, in the area of chemicals and polymers. He served on the Board of Asian Paints (India) Limited from 2002 to 2021 and currently serves on the Boards of Supreme Petrochem Limited, Deepak Nitrite Limited, GMM Pfaudler Limited and Charda Chemicals Limited as an Independent Director. The President of India bestowed on him the coveted civilian honour Padma Shri in 2006.

MR. SHAIKESH S. VAIDYA

Independent Director

He is a law graduate from Government Law College and became Solicitor in the year 1983 and has been practicing as an Advocate and Solicitor. He is one of the senior partners at Kanga & Co. He has served on the Board of Siyaram Silk Mills Limited, currently serving on the Board of Excel Industries Limited as an Independent Director. He was the President of Indian Merchants' Chamber for the year 2013-14 and continues to be the member of the Managing Committee of Indian Merchants' Chamber. He is presently Chairman of IMC International ADR Centre. He has also been the President in centennial year of the Rotary Club of Bombay Queen City and has been associated as trustee / advisor with several educational / social organizations.

MR. AMIT C. CHOKSEY

Director

He is a Commerce Graduate from Bombay University and currently Chairman & Managing Director of Mazda Colours Limited in Mumbai, India. Mazda Colours is one of the leading manufacturers of Phthalocyanine Pigments and leading exporters of its products all over the world. He has over four decades of rich

experience in managing the Manufacturing Plants of Inorganic Pigments and Intermediates, Construction Chemicals, Specialty Water Proofing compounds. He hails from a family which promoted Asian Paints (I) Limited, the largest manufacturers of Paints in India. He is a member of the prestigious Young Presidents' Organisation (YPO) is the Global Leadership Community of Extraordinary CEOs). He also holds the Diplomatic position as 'Honorary Consul of the Slovak Republic' in Mumbai.

MR. KAMLESH S. VIKAMSEY

Independent Director

He is a Chartered Accountant and a Senior Partner in reputed firm of Khimji Kunverji & Co LLP. He was member of the Central Council of ICAI from 1998 to 2007 and held the post of president in 2005. He has served on the Board of GIC Housing Finance Limited, currently serving on the Board of Tribhovandas Bhimji Zaveri Limited, Navneet Education Limited as an Independent Director to name a few.

MS. PRIYAMVADA BHUMKAR

Independent Director

She is a graduate in Chemistry and MBA in Finance from Mumbai University having 25 years of rich experience in the field of colour dispersions. She is Managing Director of Soujanya Color Pvt. Ltd., the well-known Indian colorant manufacturing company.

MR. UDAYAN D. CHOKSI

Independent Director

He is a graduate in Economics from Warwick University. In addition to his C.A. degree, he also holds an LL.B. from Mumbai University. He is a senior indirect tax professional and practising counsel, and was previously at Big 4 - accounting and prominent law firms. He is a Partner at Khaitan & Co.

MR. ABHIRAJ A. CHOKSEY

Managing Director

He graduated from the University of Pennsylvania with degrees in Engineering and Business from Wharton. He worked in strategy consulting and IT in the United States for a few years before joining Apcotex in 2005. He is associated with the Company since 2005 in various capacities and has been the Managing Director since May 2010. He is on the Executive Committee of the Indian Chemical Council (ICC), and an active member of Young Presidents' Organization (YPO) and Entrepreneurs' Organization (EO).

MR. RAVISHANKAR SHARMA

Executive Director

He is a Chemical Engineer from Laxminarayan Institute of Technology, Nagpur, passed out in 1988 and PGDBM from Goa Institute of Management, Goa (Executive MBA) in 2009 and has more than 30 years of rich experience in the field of Production, Projects, Specialty Chemicals, operations and Manufacturing.

SYNTHETIC LATEX

Synthetic Latex is manufactured from downstream petrochemicals whereas natural latex comes from rubber plantations. There are usually several types of synthetic latex which are manufactured. Our latexes which include Styrene Butadiene latex, VP latex, Styrene Acrylic latex and Nitrile latex cater to various industries like Paper/ Paperboard, Carpet, Tyre and Construction. The performance of each synthetic latex differ from industry to industry based on their characteristic, application, and polymer type. Some details are as follows:

PAPER

- Provides excellent wet and dry binding strength; provides high gloss and strength to coated paper

CARPET

- Used in backing of various types of carpets to provide excellent binding strength; depending on application requirements our grades provide a range of soft to hard handles

CONSTRUCTION

- Provides excellent water impermeability; enhances bonding between new and old concrete

TYRE CORD

- High performance latex for dipping of tyre cords used in bias tyres

GLOVES

- For manufacturing of various range of gloves – examination, surgical and industrial

SPECIALITY

- Used in a range of specialty applications such as gaskets, non-woven fabrics, abrasive paper, textile finishing, cork sheets, etc.

SYNTHETIC RUBBER

Synthetic Rubber is basically an artificial elastometer which are mainly polymers synthesized from petroleum by-products. Your company produces various kinds of Synthetic rubber from cold NBR to hot NBR with different distinctions which are as below

NITRILE RUBBER (NBR)

- This is an unusual type of synthetic rubber which is resistant to oil, fuels and various chemicals. It is used in the automotive industry as well as several other industrial applications to make fuel and oil handling hoses, seals and various rubber products where ordinary rubbers cannot be used

NBR POLYBLEND

- Cost effective medium ACN blend used for general purpose automotive and industrial moulded and extruded products, footwear products etc. for general purpose automotive and industrial goods as well as Fire Hoses

HIGH STYRENE RUBBER

- Provides various degrees of hardness and excellent processibility for Hawaii slippers and Micro-cellular sheets

NBR POWDER

- Used in joining sheets, PVC modification, brake pads, friction materials, adhesives and other rubber applications

India's construction chemicals market is projected to exhibit a CAGR of over 15% over the next few years. The assessed Market Size is 5600 Crores [Source - Construction Chemical Manufacturers Association]. There is growing investment in the country's infrastructure projects by the government as well as private companies. Green Building Concept based construction projects, would further propel demand for quality construction chemicals in the coming years. Concrete Admixtures is the largest category in the Construction Chemical space followed by Waterproofing chemicals and Dry Mortars. Increasing urbanization, smart cities and demand for high quality construction coupled with infrastructure spending and low-income housing projects is driving demand for construction chemicals. There is a huge untapped potential in the Indian market in comparison to developed countries. Consumption of construction chemical products is still much lower than developed nations. With the entry of several new companies in this space, it has changed the market dynamics giving reach and penetration for extra growth in coming years. The major categories in the construction chemical space are shown below:

Apcotex Industries Limited under the umbrella brand "ApcoBuild" is servicing the construction chemical space in the western region of India so far with a significant presence in Mumbai with large waterproofing contractors and through a network of distributors. Our core strength is in the waterproofing range of products, thanks to our backward integration in manufacturing of high quality range of polymers and coatings along with repair products.

We have innovative, high quality and cost-effective products that focus on improving ease of application for our consumers. Below is a list of the ApcoBuild products along with the applications for each product:

WATERPROOFING POLYMER PRODUCTS

Sr. No.	Product Name	Product Descriptor
1	ApcoBuild Seal N Safe	SBR latex for repairs & waterproofing
2	ApcoBuild Apcogaurd	SBR latex for repairs & waterproofing
3	ApcoBuild Hydrocrete plus	High performance Acrylic waterproof coating & repair
4	ApcoBuild Hydrocrete	Economical Acrylic waterproofing & repair system
5	ApcoBuild Apcocrete	High performance Acrylic Latex for repairs & waterproofing
6	ApcoBuild Seal N Secure	Two pack high performance Acrylic polymer modified cementitious coatings
7	ApcoBuild Apcoguard S	Speciality SBR Latex for repairs & waterproofing
8	ApcoBuild Apcoguard X	Carboxylated SBR Latex for repairs & waterproofing
9	ApcoBuid Kryst	Composed of High Quality Cement. Properly selected & graded inert aggregates, waterproofing active chemicals & additives

WATERPROOFING COATINGS

Sr. No.	Product Name	Product Descriptor
1	ApcoBuild BeautyGuard	High performance acrylic Protective Waterproof Elastomeric Decorative Coating
2	ApcoBuild Topguard	Heavy Duty Reinforced Acrylic waterproof coating for Terrace
3	ApcoBuild Terracoat	Transparent UV Resistant on Roof China Mosaic Chip waterproof coating
4	ApcoBuild Bitukote EMB	Bitumen Modified Ready to Use Cold applied Waterproof coating
5	ApcoBuild Flexiwet	High performance easy ready to use, Single component Non Cementitious Wet area Waterproof coating
6	ApcoBuild Flex PU WB	High performance, Polyurethane Hybrid UV stable, eco-friendly, flexible, water based modified liquid applied waterproofing membrane
7	Apcobuild Bitucote BJ	Reinforced Bituminous Finishing which provides an excellent economical anti-corrosive and protective coating solution for Wide range application

ADMIXTURES

Sr. No.	Product Name	Product Descriptor
1	ApcoBuild Suplast RW	High range Water reducing Admixture for Concrete
2	Apcobuild Hydrotite IWC	Liquid Integral waterproofing compound for concrete & plaster
3	ApcoBuild Concure	Liquid membrane forming curing compound for concrete. Suitable for use on all concrete surface
4	ApcoBuild Concure (W)	White Liquid membrane forming curing compound for concrete. Suitable for use on all concrete surface

1	ApcoBuild Anti Hack	Acrylic Polymer Latex that eliminates need for Hacking
2	ApcoBuild GypBind	Liquid Polymer for application of Gypsum Plaster on concrete without need for hacking
3	ApcoBuild Bondcrete	Eliminates need of hacking, thus save on effort and labour cost. Avoid damage to structure, suitable for interior & exterior application & economical in use

REPAIR PRODUCTS

Sr. No.	Product Name	Product Descriptor
1	ApcoBuild Repairo 45	Trowelable thixotropic repair mortar with fiber reinforced with high strength formulation for structural concrete repair. Suitable for placing in thickness of 12 mm to 50 mm vertically and overhead application.
2	ApcoBuild Micro Repairo	Free Flowing Polymer Mortar for RCC Repair
3	ApcoBuild Rust Kill	Rust Remover for Rebars & Steel
4	ApcoBuild Crackfiller	Specially Formulated Cement Based Polymer Modified Powder

GROUTS

Sr. No.	Product Name	Product Descriptor
1	ApcoBuild NSG 60	Free flow, High strength, non-shrink, cementitious grout with blend of Portland cement, graded filler and chemical additives which impart controlled expansion in the plastic state while minimizing water demand. The graded filler are designed to assist uniform mixing and produce a consistent free flowing grout.

TILE FIXING PRODUCT

Sr. No.	Product Name	Product Descriptor
1	ApcoBuild TileCem	Excellent Bonding Tile adhesive for fixing of Tiles
2	ApcoBuild Tileman	Polymer additive for Tile fixing
3	ApcoBuild TileCem FTA	Excellent bonding Tile adhesive for Floorings
4	ApcoBuild Floor Protekt	Easily peel able on drying. High performance Tear resistant Polymer for application on floor as a protection to wear & tear
5	ApcoBuild Block Master	Thin layer jointing mortar. The unique & advance chemical combination enables this mortar to be more compact, thinner & stronger

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMIC OVERVIEW

While the global economy has rebounded quite well since the start of the Covid-19 pandemic, global economic prospects have worsened significantly since International Monetary Fund's last World Economic Outlook forecast in January 2022. The Covid-19 pandemic, the war in Ukraine and rising global inflation may severely set back the global recovery, slowing growth considerably.

The Covid-19 virus continues to disrupt supply chains especially out of China. New virus mutations and the accumulating human toll raise concerns, even as growing vaccine coverage lifts sentiment. Economic recoveries are diverging across countries and sectors, reflecting variation in pandemic-induced disruptions and the extent of policy support. The battle between the virus and vaccines, may partly influence the growth of the country, as it also hinges on how effectively economic policies deployed under high uncertainty can limit the lasting damage from this unprecedented pandemic.

Global growth is projected to slow from an estimated 6.1 percent in 2021 to 3.6 percent in 2022 and 2023. This is 0.8 and 0.2 percentage points lower for 2022 and 2023 than projected in January 2022, World Economic Outlook.

Crude oil prices also witnessed an upswing during the year on the back of increased demand from recovering economies, supply restrictions by the Organization of the Petroleum Exporting Countries and its allies (OPEC+) and the Ukraine–Russia war.

The inflation forecast is subject to high uncertainty, principally related to the war and the pandemic. Inflation is expected to remain elevated for longer, driven by war-induced commodity price increases and broadening price pressures. For 2022, inflation is projected at 5.7 percent in advanced economies and 8.7 percent in emerging markets.

INDIAN ECONOMIC OVERVIEW

Even though the second wave of the pandemic in April - May 2021 was more severe from a health perspective, the economic impact was muted compared to the national lockdown of the previous year 2020-21. Going forward in financial year 2022-23, global issues of supply chain disruptions, the Ukraine-Russia war and high inflation, remain the main concerns for India as well.

Economic Survey predicted a GDP growth of 8.0-8.5% for the financial Year 2022-23.

EMULSION POLYMER (SYNTHETIC LATEX AND SYNTHETIC RUBBER) INDUSTRY

The global synthetic latex polymers market is somewhat fragmented with the presence of regional and global players. The market has witnessed some consolidation as well as a move towards customization of products to cater to the changing customer requirements. Globally, paper, carpet, gloves, paints and construction industries drive the growth for synthetic latex. In India, the major driver for development of the synthetic latex polymers industry is the high growth of end-use industries like paper & paperboard, paints & coatings, adhesives, water proofing/construction, etc. Another impetus comes from the fact

that there are no major substitutes to replace synthetic latex polymers in their functional aspects across various application segments.

Nitrile latex for gloves is a new emulsion polymer that your company has developed through internal R&D. It was successfully scaled up in FY 2020-21 and is currently only manufactured by your Company in India. The Covid-19 pandemic has accelerated the growth of the gloves industry globally and thus the requirement of Nitrile Latex during the financial year. It is likely to grow at a fast pace for the next few years.

Asia Pacific leads production of the global synthetic rubber industry with the automobile sector leading the growth. With the rise in population, large manufacturing base of the automobile industry and the availability of competitive labour, India offers great opportunities for synthetic rubber product manufacturers. With increasing R&D investments backed by strong infrastructure, the country is poised to become a leader in rubber products manufacturing in the years ahead. Your company manufactures specialty synthetic rubbers i.e. Nitrile Butadiene Rubber and High Styrene Rubber.

In India, around 70% of Nitrile Butadiene Rubber (NBR) is imported, which creates good potential for Indian manufacturers of Nitrile Rubber. Notwithstanding the recent slowdown due to Covid-19 and other reasons, the long-term growth of this segment can be attributed to the growing demand for NBR across automotive, industrial and agricultural applications.

CURRENT SCENARIO

Your Company is one of the leading producers of emulsion polymer products in India, namely Synthetic Latexes (various grades of Carboxylated Styrene Butadiene Latex, Styrene Acrylic Latex, Vinyl Pyridine Latex and Nitrile Latex) and Synthetic Rubber (Nitrile Butadiene Rubber, Nitrile Polyblends, NBR Powder and High Styrene Rubber). The Company has one of the broadest ranges of emulsion polymer products in India and caters to a wide range of industries. Your Company's Synthetic Latex products are used for tyre cord dipping, paper and paperboard coating, carpet backing, concrete modification/ water proofing, non-wovens, textile finishing, paints, gloves and a few other specialty applications. Various grades of Synthetic Rubber find application in products such as footwear, automotive components, rice rolls, moulded items, v-belts, conveyor belts, hoses, etc.

The Company's major raw materials are petrochemical products, and its business could be vulnerable to high volatility in the prices of crude oil as well as its downstream products.

Over the years, a number of steps have been taken by the management to improve the operational efficiency of the Company in different functions like marketing, human resource development, production process, utilities etc.

OPERATIONS DURING THE FINANCIAL YEAR 2021-22

The Company has achieved total revenue of Rs. 964.78 Cr. during the financial year 2021-22, compared to Rs. 545.82 Cr. in the preceding financial year. The Company exported its products worth Rs. 202.78 Cr. during the financial year,

approximately 21% of the total revenue. The Company had registered a Value and Volume sales growth of about 77% and 35% respectively over the previous financial year, despite of Covid-19 related lockdown in the country or across the globe.

Profit before tax is up by 130% to Rs. 130.36 Cr. as compared to Rs. 56.74 Cr. during the previous financial year, mainly on account of increase in volume sales, introduction of new products, optimization of product and customer mix, adding new geographics, commissioning of capacity de-bottlenecking and cost saving projects.

During financial year 2021-22, Operating EBITDA went up by 100% to Rs. 139.82 Cr. from Rs. 69.87 Cr. during the previous financial year.

Profit after tax is up by 124% to Rs. 98.80 Cr., as compared to Rs. 44.16 Cr. during the previous financial year.

The Balance Sheet of the Company is quite healthy with debt of Rs. 29.66 Cr., reasonable working capital cycle and cash/liquid investments valued at Rs. 98.67 Cr. based on NAV as on 31st March 2022.

Your Company's plant at Taloja is recipient of Total Productive Maintenance (TPM) Excellence in Consistent TPM Commitment Award - Category A by the Japan Institute of Plant Maintenance (JIPM). Recently your Company's plant at Valia is also accredited with TPM Excellence Award – Category A by JIPM. TPM has helped the company significantly in improving efficiencies in the plant and in operations and rationalizing costs. Both plants have successfully completed certification/re-certification of the integrated ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018. In financial year 2021-22, your company was recertified by the Indian Chemical Council (ICC) to use the Responsible Care logo for 3 more years.

Your Directors consider Company's performance as satisfactory.

OUTLOOK

The Company expects financial year 2022-23 to be a challenging year due to a few reasons. The new variants of the corona virus which may cause a slowdown in some sectors and disrupt global supply chains especially from China. Rising inflation and increase in the crude prices can dampen the sentiments and recovery of economy. However, your company is optimistic about its prospects with all the steps taken over the last 2 years. Business across most of its product groups has been very strong through the year and this is expected to continue at least in the first half of the new financial year. Sales from the new product range of Nitrile Latex for the Gloves industry has picked-up swiftly during the financial year. The Company plans to make this product range one of the future growth drivers. The Company is building new latex capacities at Taloja and Valia which are scheduled to be commissioned during the financial year. The Company will continue to look for opportunities in new adjacent products as well as opportunities for inorganic growth.

There is a continuous thrust from the management to develop a strong R&D and technical service team to develop new products, explore new applications and understand better the changing customer needs.

With the Company's continuous endeavour to introduce new products and improve efficiencies and performance, your Directors view the prospects for the financial year 2022-23 with cautious optimism.

RISKS AND CONCERNS

The Company has laid down a well-defined Risk Management Framework covering the risk, risk exposure, potential impact and risk mitigation process. Plant Risks are identified by all process owners which is discussed with the HOD and then taken to the Plant Risk Committee for their Consideration. After evaluation of the Risk by the Plant Risk Committee, same is placed before the Apex Risk Committee and thereafter before Risk Management Committee of Board. Major risks identified by the plants, functions and senior management are systematically addressed through a quantified risk assessment process and mitigating actions are discussed and reviewed periodically. These are also discussed at the meetings of the Risk Management Apex Committee, Audit Committee, Risk Management Committee of Directors and the Board of Directors of the Company.

The Company's Apex Risk Management Committee, Plant Risk Committees, and Risk Management Committee of the Board, periodically review the risks in the organization, identify new risk areas, develop action plans, monitors and reports the compliance, and effectiveness of the policy as well as procedure to the Audit Committee and the Board.

The Audit Committee and the Board review the risks and suggest steps to be taken to control and mitigate the same through a properly defined framework.

The Company's Board of Directors perceives the following risks as current high risks areas:

1. INTERNATIONAL SUPPLY CHAIN:

Due to Covid-19 and the war between Ukraine – Russia, many of the containers and the shipping liners were stuck in few countries, which affected the availability of containers and resulted into increase in the container / freight costs during the financial year under review.

To mitigate this risk, the management is working with various shipping liners and clearing and forwarding agents for various geographies. We have also taken a conscious decision to increase inventory days for imported materials. Also, alternate sources of materials are being identified from different geographies including developing local sources.

2. PROCUREMENT RISKS:

Major risks arise from a few key raw materials like Styrene, Acrylonitrile and Butadiene, amongst others, that are used in several of our products. Butadiene is used in all products. Butadiene is currently available from limited manufacturers in the country. If there is an issue with the supply of Butadiene may be on account of an unplanned shut-down taken by a supplier, the production of most products would be affected adversely.

To mitigate this risk, we have business relationships with multiple suppliers and keep an adequate inventory and pipeline of Butadiene. We are exploring to a tie-up with alternate supplier for some portion of our requirements.

3. ENERGY:

Non-availability / shortage of coal, gas and power may result into increase in the manufacturing cost adversely affecting the margins.

To mitigate this risk, we have developed multiple coal suppliers, and have entered into long term contracts with

the suppliers. We are also working on installing renewable energy sources and exploring a direct feeder line for the Valia plant to avoid power interruptions.

4. INVESTMENT RISK:

Your Company had investment of Rs. 98.67 Cr., based on Net Assets Value (NAV) as on 31st March 2022. Out of this investment, about 41.16% is invested in Equity Mutual Fund and rest in Debt, Direct Equity and Liquid Fund. The volatility in the market may adversely affect the Company due to Mark to Market losses.

To overcome this risk, the management reviews the investments on regular basis and verify the returns and present the same before the Board for their consideration every quarter. The portfolio is managed with the advice of professional financial managers.

5. ENVIRONMENT, HEALTH AND SAFETY (EHS):

The Company is committed to protecting the environment, and ensuring the health and safety of its employees, customers, neighbors and public. Some of our major raw materials are hazardous and flammable and some safety risks are inherent in the manufacturing processes.

The Company has ensured that required process controls, safety equipments and infrastructure are in place as per statutes and global safety standards. Your Company is also certified for ISO 14001:2015, ISO 45001:2018 and Responsible Care, which address Environmental, Health and Safety systems and processes. In addition, other safety measures like safety committee's constant supervision, identification and correction of unsafe acts, periodical drills, risk awareness programs and appropriate treatment of effluents generated, are regularly taken with constant attention from senior levels of management. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2022, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditors Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance, Business Responsibility report and Shareholder's Information, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities;

selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financials Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a

going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE – B TO THE INDEPENDENT AUDITOR’S REPORT

The Annexure referred to in paragraph 2(f) under “Report on Other Legal and Regulatory Requirements” section of our report of even date,

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Apcotex Industries Limited** (“the Company”) as of 31st March, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by ICAI (the “Guidance Note”) and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

NOTE: 1

1.1 COMPANY INFORMATION:

Apcotex Industries Ltd. is one of the leading producers of Synthetic Lattices (VP Latex, Acrylic Latex, Nitrile Latex) and Synthetic Rubber (HSR, SBR) in India. The Company has one of the broadest ranges of products based on STYRENE – BUTADIENE CHEMISTRY available in the market today. Company's product range is used, among other applications, for TYRE CORD DIPPING, PAPER/PAPER BOARD COATING, CONCRETE MODIFICATION/WATER PROOFING, PAINT EMULSIONS, TEXTILE FINISHING, HAND GLOVES etc. The various grades of Synthetic Rubber find application in products such as Footwear, Automotive components, V-belts, Conveyor belts and hoses. The Registered office of the company is situated at 49-53 Mahaveer Centre, Sector 17, Vashi, Navi Mumbai -400703.

1.2 BASIS OF PREPARATION

These financial statements have been prepared in accordance with the Indian Accounting Standards (herein referred to as 'IND AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of Companies Act 2013, read with Companies (Indian Accounting Standards) Rules 2015 (as amended).

The financial statements have been prepared and presented under historical cost convention, on accrual and going concern basis of accounting except certain financial asset and liabilities that are measured at fair value at the end of each accounting period as stated in the accounting policies below. The Accounting policies are applied consistently in presenting these financial statements.

The classification of assets and liabilities of the Company into current or non-current is based on the criterion specified in the Schedule III to the Companies Act, 2013. The Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

The financial statements are approved by the Audit Committee and Board of Directors at their meeting held on 27th April 2022. The Board of Directors of the Company has authorized to issue the financial statements as per decision taken in their meeting held on 27th April 2022.

(a) Functional and Presentation currency:

The financial statements are prepared in Indian Rupees, which is the Functional and Presentation currency for the Company.

(b) Use of Estimates:

The preparation of Financial Statement in accordance with IND AS requires use of estimates and assumptions for some items, which might have effect on their recognition and measurement in the Balance Sheet and Statement of Profit and Loss. The actual amounts realized may differ from these estimates. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as Management becomes aware of changes in circumstances surrounding the estimates. Differences between the actual results and estimates are recognized in the period in which the results are known / materialized, and if material, their effects are disclosed in the notes to financial statements.

Estimates and assumptions are required for:

i. Useful life of PPE:

Determination of estimated useful life of tangible assets and the assessments as to which components of cost may be capitalized. Useful life of tangible fixed assets is based on life prescribed in Schedule II of the Companies Act, 2013. Assumptions also need to be made, when the Company assesses, whether an asset may be capitalized and which components of the cost of the asset may be capitalized.

ii. Recognition and measurement of defined benefit obligations:

The obligation arising from the defined benefit plan is determined on basis of actuarial assumptions. Key actuarial assumptions include discount rate, salary escalation rate, attrition rate, and life expectancy. The discount rate is determined with reference to market yields at the end of reporting period on the government bonds.

iii. Recognition of deferred tax assets:

A deferred tax asset is recognized for all the deductible temporary differences to the extent that is probable that taxable profits will be available against which the deductible temporary difference can be utilized. The management assumes that taxable profits will be available while recognizing deferred tax assets.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

iv. **Recognition and measurement of other provisions:**

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the Balance Sheet date. The actual outflow of resources at future date may vary from the figure included in other provisions.

v. **Discounting of long-term financial liabilities:**

All financial liabilities are required to be measured at fair value on initial recognition. In case of financial liabilities, which are subsequently measured at amortized cost, interest is accrued using the effective interest method.

vi. **Determining whether an arrangement contains a lease:**

At the inception of an arrangement, the Company determines whether the arrangement is or contains a lease. At the inception or on reassessment of an arrangement that contains a lease, the Company separates payments and other consideration required by the arrangement into those for the lease and those for the other elements on the basis of their relative fair values. If the company concludes for a finance lease that it is impracticable to separate the payments reliably then an asset and a liability are recognized at an amount equal to the fair value of the underlying asset; subsequently the liability is reduced as payments are made and an imputed finance cost on the liability is recognized using the Company's incremental borrowing rate.

vii. **Fair value of financial instruments:**

Derivatives are carried at fair value. Derivatives include Foreign Currency Forward Contracts and options. Fair value of Foreign Currency Forward Contracts is determined using the rates published by Reserve Bank of India / State Bank of India.

viii. **Current Vs. Non-Current classification:**

I. An asset is classified as current when it is:

1. Expected to be realized or intended to be sold or consumed in normal operating cycle
2. Held primarily for purpose of trading
3. Expected to be realized within twelve months after the reporting period or
4. Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non – current

II. A liability is classified as current when it is:

1. Expected to be settled in normal operating cycle
2. Held primarily for purpose of trading
3. Due to be settled within twelve months after the reporting period or
4. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are treated as non-current.

III. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

1.3 **SIGNIFICANT ACCOUNTING POLICIES:**

I. **Property Plant and Equipment**

a) **Initial and subsequent recognition and CWIP:**

Property Plant & Equipment are carried at the cost of acquisition or construction, less accumulated depreciation and accumulated impairment, if any. The cost of items of Property Plant & Equipment includes taxes (other than those subsequently recoverable from tax authorities), duties, freight and other directly attributable costs related to the acquisition or construction of the respective assets. Know-how related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant asset heads.

Subsequent costs are included in the assets carrying amount or recognized as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs & maintenance are charged to profit and loss during the reporting period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

Capital work-in-progress comprises of the cost of Property Plant and Equipment that are not ready for their intended use at the reporting date. Any gain or loss on de-recognition (calculated as difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the Statement of Profit and Loss when the asset is derecognized.

b) Depreciation & Amortization:

Depreciation is provided on a pro-rata basis on the straight-line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013.

c) Impairment:

The carrying amounts of the Company's tangible assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated in order to determine the extent of impairment loss, if any. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The impairment loss, if any, is recognized in the Statement of Profit and Loss in the period in which impairment takes place.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, however subject to the increased carrying amount not exceeding the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior accounting periods.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

II. Intangible Assets:

a) Initial and subsequent recognition:

Intangible assets are recorded at the consideration paid for acquisition of such assets and are carried at cost less accumulated amortization and impairment, if any.

Separately purchased intangibles are initially measured at cost. Intangible assets acquired in a business combination are recognized at fair value at the acquisition date. Subsequently intangible assets are carried at cost less accumulated amortization and accumulated impairment loss, if any.

The useful lives of intangible assets is assessed as either finite or infinite. Finite-life intangible assets are amortized on a straight-line basis over the period of their expected useful lives. Estimated useful lives of finite-life intangible assets is as follows:

Computer Software – 3 years

b) Amortization:

The amortization period and the amortization method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

III. Investments property

a) Initial and subsequent recognition:

Investment properties are properties that are held to earn rentals and /or for capital appreciation (including property under construction for such purposes) and not occupied by the Company for its own use.

Investment properties are measured initially at cost, including transaction costs and net of recoverable taxes. The cost includes the cost of replacing parts and borrowing costs if recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

b) Depreciation:

Depreciation on Investment property, wherever applicable, is provided on straight line basis as per useful lives prescribed in Schedule II to Companies Act, 2013.

c) De-recognition:

Investment properties are derecognized either when they have been disposed of or when they are being occupied by the Company for its own use or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

IV. Inventories:

Inventories are valued at lower of Cost and Net Realizable Value.

The cost is determined as follows:

- a) Raw and Packing Materials are valued at cost or market value, whichever is lower, computed on weighted average basis. The cost includes the cost of purchase and other expenses directly attributable to their acquisition but excludes duties and taxes, which are subsequently recoverable.
- b) The finished goods inventory is valued at cost or net realizable value whichever is lower. Cost includes material cost, conversion, appropriate factory overheads, any tax or duties (as applicable) and other costs incurred in bringing the inventories to their present location and condition.
- c) Work-in-Process is valued at material cost and cost of conversion appropriate to their location in the manufacturing cycle.
- d) Stores, Spares and consumables are valued at cost, computed on FIFO basis. The cost includes the cost of purchase and other expenses directly attributable to their acquisition but excludes duties and taxes that are subsequently recoverable, if any.

Slow-moving and damaged, unserviceable stocks are adequately provided wherever considered necessary.

V. Cash and Cash Equivalents:

Cash and cash equivalents for the purposes of Cash Flow Statements includes cash in hand, deposits with banks and short term highly liquid investments, which are readily convertible into cash and have original maturities of three months or less and which are subject to an insignificant risk of changes in value.

VI. Non-current Assets held for sale:

Non-current assets or disposal groups comprising of assets and liabilities are classified as 'held for sale' when all the following criteria are met:

- (i) decision has been made to sell
- (ii) the assets are available for immediate sale in its present condition
- (iii) the assets are being actively marketed
- (iv) sale has been agreed or expected to be concluded within 12 months of the Balance Sheet date

Subsequently, such non-current assets and disposal groups classified as held for sale are measured at the lower of its carrying value and fair value less cost to sell. Non-current assets held for sale are not depreciated or amortized.

VII. Borrowing costs:

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an qualifying asset (net of income earned on temporary deployment of funds) that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized. All other borrowing costs are charged to statement of profit and loss. Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the borrowing cost.

General Borrowing cost incurred in connection with qualifying assets is capitalized by applying the capitalization rate on the quantum of such borrowings utilized for such assets.

VIII. Revenue recognition:

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services.

Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes or other amounts collected from customers in its capacity as an agent. If the consideration in a contract includes a variable amount, the company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Dividend income is recognized in statement of profit and loss only when the right to receive payment is established, which is generally when shareholders approve dividend.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

Export incentives receivable under Duty Drawback Scheme and MEIS are accounted on accrual basis.

Interest income is recognized using the effective interest rate (EIR) method.

Insurance claims are recognized post filing of the claim with the insurer.

IX. Foreign Currency Transactions:

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing on the date of transaction. Monetary items denominated in foreign currencies at the year end are re-measured at the exchange rate prevailing on the balance sheet date. Non-monetary foreign currency items are carried at cost. Any income or expense on account of exchange difference either on settlement or on restatement is recognized in the Statement of Profit and Loss.

The Exchange Rate Difference and the forward premium on the loan taken for capital assets are being capitalized along with Interest till the date of commissioning of the said capital assets.

X. Employee Benefits:

a) Short term employee benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

b) Long term employee benefits:

i) Defined contribution plans:

Contributions to defined contribution schemes such as employees state insurance, labour welfare fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution is made to a government administered fund and is charged as an expense in the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further obligations beyond the monthly contributions.

ii) Defined benefit plans:

The Company operates a defined benefit gratuity plan, which required contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are recognized immediately, in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- the date of the plan amendment or curtailment or
- the date that the Company recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the statement of Profit and Loss:

- service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements.
- Net Interest expense or income.

c) Termination benefits:

Termination benefits in the nature of voluntary retirement benefits or termination benefits arising from restructuring are recognized in the Statement of Profit or Loss. The Company recognizes termination benefits at the earlier of the following dates:

- when the Company can no longer withdraw the offer of these benefits
- when the company recognizes costs for restructuring that is within the scope of IND AS 37 and involves the payment of termination benefits.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

XI. Fair Value Measurement:

The Company measures financial instruments at fair value on each Balance Sheet date. Fair value is the price that would be received to sell an asset or settle a liability in an ordinary transaction between market participants at the measurement date. The fair value measurement is based on presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability or
- in absence of principal market, in the most advantageous market for asset or liability. The principal or the most advantageous market should be accessible to the Company.

The fair value of an asset or a liability is measured using the assumption that market participants would use when pricing an asset or liability acting in their best economic interest. The Company uses valuation techniques, that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:-

- Level 1 – Quoted market prices in active market for identical assets or liabilities.
- Level 2 – valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as properties, unquoted financial assets etc. Involvement of independent external valuers is decided upon annually by the Company. Further such valuation is done annually at the end of the financial year and the impact if any on account of such fair valuation is taken in the annual financial statements.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

XII. Leases:

The Company's lease asset classes primarily consist of leases for land and buildings. The Company, at the inception of a contract, assesses whether the contract is a lease or not lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets (assets of less than ₹ 1,00,000 in value). The Company recognises the lease payments associated with these leases as an expense over the lease term.

In the comparative period, leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments and receipts under operating leases are recognised as an expense and income respectively, on a straight line basis in the statement of profit and loss over the lease term except where the lease payments are structured to increase in line with expected general inflation.

XIII. Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial Assets:

i) Initial recognition and measurement:

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, all financial assets are recognized at fair value. In case of financial assets which are recognized at Fair Value through Profit and Loss (FVTPL), its transaction costs are recognized in the statement of profit and loss. In other cases, transaction costs are attributable to the acquisition value of the financial asset are added to the value of financial asset.

Financial assets are not reclassified subsequent to their recognition, except and if and in the period the Company changes its business model for managing financial assets.

ii) Subsequent measurement:

Financial assets are subsequently classified and measured at:

- Amortized cost
- Fair value through profit and loss (FVTPL)
- Fair value through other comprehensive income (FVTOCI)

Investments in Debt Instruments:

A debt instrument is measured at amortized cost or at FVTPL. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

a) Financial Assets measured at amortized cost:

Financial assets are measured at amortized cost when the asset is held within a business model, whose objective is to hold assets for collecting contractual cash flows and contractual terms of the assets are such that they give rise on specified dates to cash flows that are solely payments of principal and interest. Such financial assets are subsequently measured at amortized cost using the effective interest rate method (EIR). The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument. The losses from impairment are recognized in the statement of profit and loss.

b) Financial Assets measured at fair value through OCI (FVTOCI):

Financial assets under this category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income.

c) Financial Assets measured at fair value through profit and loss:

Financial Assets under this category are measured initially as well as at each reporting date at fair value, with all changes recognized in statement of profit and loss.

Investments in Equity Instruments:

All investments in equity instruments classified under financial assets are initially measured at fair value. The Company may, on initial recognition, chooses to measure the same either at FVTOCI or FVTPL, which is done on an instrument-by-instrument basis.

Fair value changes on an equity instrument is recognized as other income in the Statement of Profit and Loss unless the Company has elected to measure irrevocably such instrument at FVTOCI. Fair value changes excluding dividends, on an equity instrument measured at FVTOCI are recognized in OCI. Amounts recognized in OCI are not subsequently reclassified to the Statement of Profit and Loss even on the sale of investment. Dividend income on the investments in equity instruments are recognized as 'other income' in the Statement of Profit and Loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

Investment in Subsidiary, Joint Venture and Associate

Investments in equity instruments of Subsidiaries are measured at costs. Provision for impairment loss on such investment is made only when there is a diminution in the value of investment which is other than temporary.

iii) Derecognition of Financial Assets:

A financial asset is derecognized only when the contractual rights to receive cash flows from the asset have expired or the Company has transferred the financial asset and substantially all the risks and rewards of ownership of the asset.

iv) Impairment of Financial Assets:

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category.

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For trade receivables Company applies simplified approach which requires lifetime ECL allowances to be recognized from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analyzed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk lifetime ECL is used.

The impairment losses and reversals are recognized in Statement of Profit and Loss.

b) Financial Liabilities:

i) Initial recognition and measurement:

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs, if any.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

ii) Subsequent measurement:

Financial liabilities are subsequently measured at amortized cost using the EIR method. Financial liabilities carried at fair value through profit or losses are measured at fair value with all changes in fair value recognized in the Statement of Profit and Loss.

Loans and borrowings:

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit and loss when the liabilities are derecognized.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

iii) Derecognition:

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

XIV. Derivatives:

The Company enters into various derivative financial instruments to manage its exposure to interest and foreign exchange rate risks, like foreign exchange forward contracts and interest rate swaps.

Derivatives are initially recognized at fair value on the date the derivative contracts are entered into and are subsequently re-measured to their fair value (Mark to Market) at the end of each reporting period. The resulting gain or loss is recognized in the Statement of profit and loss. Company does not designate any of its derivative instruments as hedge instruments. Derivatives are carried as financial assets when fair value is positive and as financial liabilities when the fair value is negative.

XV. Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as finance cost.

Contingent Assets are not recognized but disclosed in the Financial Statements when economic inflow is probable.

XVI. Segment Information:

The Managing Director (MD) is designated as company's Chief Operating Decision Maker (CODM). The MD reviews the company's internal financial information for the purpose of evaluating performance and assigning resources to segments. The Company has determined the operating segment based on structure of reports reviewed by MD. The Company operates in a single primary business segment, i.e. Synthetic Lattices & Rubber.

XVII. Income taxes:

Income tax expense for the year comprises of current tax and deferred tax, recognized in the Statement of Profit and Loss, except to the extent it relates to a business combination, or items recognized directly in equity or in other Comprehensive Income. Current tax is the expected tax payable/receivable on the taxable income/loss for the year using applicable tax rates at the Balance Sheet date, and any adjustment to taxes in respect of previous years. Interest income/expenses and penalties, if any, related to income tax are included in current tax expense.

Deferred tax is recognized in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. A deferred tax liability is recognized based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax assets deriving from carry forward of unused tax credits (including MAT) and unused tax losses are recognized to the extent that it is probable that future taxable profit will be available in future against which the deductible temporary differences, unused tax losses and credits can be utilized. Deferred tax relating to items recognized in other comprehensive income and directly in equity is recognized in correlation to the underlying transaction.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

XVIII. Research and Development:

Expenditure on research and development is charged to statement of profit and loss in the year in which it is incurred, with the exception of:

- expenditure incurred in respect of major new products where the outcome of these projects is assessed as being reasonably certain as regards viability and technical feasibility. Such expenditure is capitalized and depreciated over useful life. Capital expenditure in respect of assets used for conducting research activities are capitalized under respective heads of Property Plant and Equipment. These assets are depreciated over their useful life.

XIX. Earnings per Share:

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

Note:

All investments classified under financial assets are initially measured at fair value. The Company, on initial recognition, chooses to measure the same either at FVTOCI or FVTPL, which is done on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognized as other income in the Statement of Profit and Loss unless the Company has elected to measure irrevocably such instrument at FVTOCI. Fair value changes excluding dividends, on an equity instrument measured at FVTOCI are recognized in OCI. Amounts recognized in OCI are not subsequently reclassified to the Statement of Profit and Loss even on the sale of investment. Dividend income on the investments in equity instruments are recognized as 'other income' in the Statement of Profit and Loss.

Total	38,579.45	29,503.44

Notes:
Refer Statement of Changes in Equity for detailed breakup.

Nature and purpose of reserves :

(a) **Capital Reserve** : During amalgamation, the excess of net assets taken, over the cost of consideration paid is treated as capital reserve.

(b) **Capital Redemption Reserve** : The Company has recognised Capital Redemption Reserve on buyback of equity shares from its retained earnings. The amount in Capital Redemption Reserve is equal to nominal amount of the equity shares bought back.

(c) **Securities Premium** : The amount received in excess of face value of the equity shares is recognised in Securities Premium. In case of equity settled based payment transactions, the difference between fair value on grant date and nominal value of share is accounted as securities premium.

(d) **General Reserve** : The General Reserve is used from time to time to record transfer of profit from retained earnings, for appropriation purposes. As general reserve is created by transfer of one component of equity to another and it is not an item of other comprehensive income, it will not be reclassified subsequently to Profit or Loss.

(e) **Retained Earning** : Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.

(f) **FVTOCI Reserve**: Gain / (Loss) on fair valuation of Non Current Investments classified under FVTOCI.

NOTE 44: EMPLOYEE BENEFIT

a) Contribution to Defined Contribution Plan:

i) Employers Contribution to Provident Fund including contribution to Pension Fund amounting to ₹ **182.57 lakhs** (Previous Year – ₹ 154.33 lakhs) has been included under Contribution to Provident and other Funds. (Refer Note – 32)

ii) Compensated absences:

The Company provides for encashment of leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number of days of unutilized leave at each Balance Sheet date on the basis of an independent actuarial valuation.

iii) Superannuation:

The Company makes contribution to Superannuation Scheme, a defined contribution scheme administered by Insurance Companies. The Company has no obligation to the scheme beyond its annual contribution.

b) Contribution to Defined Benefit Plans:

i) Gratuity:

The Company provides for gratuity as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. Amount of gratuity payable on retirement /termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied by number of years of service. The Company accounts for the liability for gratuity benefits payable in future based on an actuarial valuation.

These plans typically expose the Company to actuarial risks such as, Investment risk, Interest rate risk, longevity risk, salary escalation rate risk etc.

a) Investment risk:

The present value of defined benefit plan liability is calculated using a discount rate determined by reference to the market yields on government bonds denominated in Indian rupees. If the actual return on plan asset is below this rate, it will create a plan deficit.

b) Interest rate risk:

A decrease in the bond interest rate will increase the plan liability. However this will be partially offset by an increase in the return on plans debt investments.

c) Longevity risk:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants during their employment.

An increase in the life expectancy of the plan participants will increase the plan's liability.

d) Salary Escalation Rate risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As an increase in the salary of plan participants will increase the plans liability.

The following table sets out the status of the Gratuity Plan as required under IND AS 19.

The principal assumption used for the purposes of the actuarial valuation is as follows:

Particulars	As at 31st March 2022	As at 31st March 2021
Discount Rate	7.30%	6.80%
Expected rate of salary increase-first year	9.50%	8.50%

- No funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties").

NOTE 46: FINANCIAL RISK MANAGEMENT

The Company's business activities are exposed to a variety of financial risks i.e. Liquidity risk, Market risk and Credit risk. The Company's senior management has overall responsibility for establishing and governing the Company's risk management framework.

The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Board of the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

a) Liquidity Risk:

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company has obtained fund and non-fund based working capital limits from its bankers.

The Company regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet its daily operational needs. Any short-term surplus cash generated, over and above the normal requirement for working capital is invested in Bank Fixed deposits and Mutual funds, which carry minimal mark to market risks.

The below table summarizes the maturity profile at the balance sheet date for its non-derivative financial liabilities based on undiscounted cash flows:

	Undiscounted Amount (₹ in Lakhs)

b) Market Risks:

Market risk is the risk of changes in market prices, liquidity and other factors that could have an adverse effect on realizable fair values of financial assets and financial liabilities and future cash flows to the Company. The Company's activities expose it to risk from movements in foreign currency exchange rates, interest rates, and market prices that affect its assets, liabilities and future transactions.

l) Foreign currency risk:

i. Potential impact of risk:

The Company undertakes transactions denominated in foreign currency and is thus exposed to foreign currency risk from transactions and translation.

The Company's exposure to foreign currency risk at the end of reporting period expressed in INR as on 31st March 2022:

Particulars	(₹ in Lakhs)

Derivative Liabilities:			
Foreign exchange forward contract (purchase) foreign currency	155.95	-	-
Net exposure to foreign currency risk – liabilities	638.82	234.00	-

ii. Management policy:

The Company manages currency exposures within prescribed limits, through use of forward exchange contracts. The use of derivative instruments is subject to limits and regular monitoring by Management.

iii. Sensitivity to risk:

The sensitivity of profit and loss to changes in the exchange rates arises mainly from unhedged foreign currency denominated financial instruments. The foreign exchange rate sensitivity is calculated for each currency by aggregation of the net foreign exchange rate exposure of currency and a parallel foreign exchange rates shift in the foreign exchange rates of each currency by 5% which represents Management's assessment of the reasonably possible change in foreign exchange rates.

The company's exposure to foreign currency risk at the end of the reporting period as on 31st March, 2022 are as follows:

The company's exposure to foreign currency risk at the end of the reporting period as on 31st March 2021 are as follows:

Currency	Trade Receivables	Trade Payables	Net Exposure	Exchange Rate	5% strengthening in exchange rate	Difference in Exchange Rate	Net Gain/ (Loss) (₹ in Lakhs)
USD	20,38,094	8,70,102	11,67,992	73.50	69.83	3.67	(42.87)
EURO	57,205	2,71,776	(2,14,571)	86.10	81.80	4.30	9.23
Net gain/(loss)							(33.64)

A 5% weakening of the INR against these currencies would have led to an equal but opposite effect

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

II) Price risk:

i. Potential impact of risk:

The Company is mainly exposed to the price risk due to its investments in equities & mutual funds. The price risk arises due to uncertainties about the future market value of these investments.

As at **31st March 2022**, the investments in equities and mutual funds amount to ₹ **8,219.60 lakhs** (as at 31st March 2021- ₹ 6,815.80 lakhs) which are exposed to price risk.

ii. Management policy:

The Company has laid policies and guidelines which it adheres to in order to minimize price risk arising from Investments in Equities & Mutual funds.

iii Sensitivity to risk:

A 10% increase in prices would have led to approximately an additional ₹ **821.96 lakhs** gain in the Statement of Other Comprehensive Income for the year ended **31st March 2022** (for the year ended 31st March 2021 ₹ 681.58 lakhs). A 10% decrease in prices would have led to an equal but opposite effect.

III) Interest rate risk:

i. Potential impact of risk:

Interest rate risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk because the Company borrows funds at both fixed and variable interest rates.

As at **31st March 2022**, the Company has variable rate borrowings to the extent of ₹ **3,779.58 lakhs** (average borrowings for the year) (As at 31st March 2021, ₹ 4,255.41 lakhs). These are exposed to Interest rate risk.

ii. Management policy:

The risk is managed by maintaining an appropriate mix between fixed and floating rate borrowings. The Company has laid policies and guidelines which it adheres to in order to minimize the interest rate risk.

iii. Sensitivity to risk:

The sensitivity analysis has been determined based on exposure to interest rates at the end of reporting period. For floating rate liabilities, the analysis is prepared assuming that the amount of liability as on the end of reporting period was outstanding for the entire year. A 25 basis point increase or decrease is used when reporting interest rate risk internally and represents Managements assessment of the reasonable possible change in interest rates.

If Interest rates had been 25 basis point higher, the Company's profit would decrease by approximate ₹ **9.45 lakhs** (For the year ended 31st March 2021, profit would decrease by ₹ 10.64 lakhs). A 25 basis point decrease in Interest rates would have led to an equal but opposite effect.

c) Credit Risk:

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of dealing with creditworthy counterparties and obtaining sufficient collateral, wherever appropriate, as a means of mitigating the risk of financial loss from defaults. Trade receivables consist of a large number of customers, across geographies, hence is not exposed to concentration risk. Ongoing credit evaluation is performed on the financial condition of its customers.

The Company makes an allowance for doubtful debts using Expected Credit Loss (ECL) model.

Movement in expected credit loss allowance:

	As at 31st March 2022	As at 31st March 2021
Trade Receivables	16,175.67	10,484.66
Allowance for doubtful debt at beginning of the year	109.50	29.01
Incremental expected credit loss allowance	219.14	80.49
Allowance for doubtful debt at end of the year	328.64	109.50

The scope and quantum of remuneration specified hereinabove, may be enhanced, enlarged, widened, altered or varied by the Board of Directors on the recommendation of the Nomination and Remuneration Committee, in the light of and in conformity with any amendments to the relevant provisions of the Companies Act and/or the rules and regulations made there-under and/ or such guidelines as may be announced by the Central Government from time to time.

The Company shall pay to or reimburse the Managing Director and he shall be entitled to be paid and/or to be reimbursed by the Company all costs, charges and expenses that may have been or may be incurred by him for the purposes of or on behalf of the Company.

The draft of the agreement to be entered into by the Company with Mr. Abhiraj Choksey is available for inspection.

Except Mr. Atul Choksey, Mr. Amit Choksey, no other Director(s) or Key Managerial Personnel of the Company and their relatives other than the concerned Managing Director are in anyway deemed to be concerned or interested, financially or otherwise, in the resolutions as set out in Item Nos 4 of the Notice.

The Board recommends the Special Resolution set out at Item No. 4 of the Notice for approval by the shareholders for re-appointment of Mr. Abhiraj Choksey for further period of 3 years with effect from 1st May 2022.

Item No.5

As per Regulation 17(6)(ca) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, requires companies to obtain approval of the Members by passing of a special resolution, every year, for payment of remuneration to a Non-Executive Director exceeding 50% (fifty percent) of the total annual remuneration payable to all Non-Executive Directors.

Mr. Atul Choksey is the Promoter, Non-Executive Director/ Chairman of the Company since 1991. He plays an important role in guiding the Managing Director & Executive Director for long term strategy and for continual growth of profitability of the Company. In view of role played by him in the functioning of the Company, the proposed remuneration structure of the Chairman is devised so as to be commensurate with the efforts and inputs that he provides to the Company and accordingly he is entitled to an additional remuneration for his engagement beyond Board meetings which is based on industry standards.

The Board of Directors in their meeting held on 27th April 2022, have approved the payment of commission of Rs.111.00 lacs to Mr. Atul Choksey – Chairman of the Company, out of

the total Commission of Rs.143.50 lacs available for Non-Executive Directors of the Company, as computed under Section 198 of the Companies Act, 2013, which is about 1% of net profits of the Company for the financial year, which is subject to approval of the shareholders in the ensuing AGM. In the AGM held on 4th June 2019, the shareholders have approved the payment of commission upto 3% of net profits of the Company to Non-Executive Directors.

Since the amount of Commission payable to Mr. Atul Choksey – Chairman, as proposed by the Board of Directors, exceeds 50% of the total Commission amount available for Non-Executive Directors of the Company, the approval of Shareholders is required by way of a Special Resolution.

Mr. Atul Choksey, Non-executive Director/Chairman of the Board and his relatives' viz. Mr. Amit C Choksey and Mr. Abhiraj Choksey, are deemed to be interested in the resolution set out at Item No.5 of the Notice, to the extent of their shareholding interest, if any, in the Company.

Save and except the above, none of the Directors / Key Managerial Personnel of the Company/their relatives are, in any way, concerned or interested financially or otherwise, in the resolution set out at Item No.5

Your Board recommends the passing of Special Resolution set out at Item No.5 of the Notice.

Item No.6

Cost Auditor

The Company is required to have its costs records audited by a Cost Accountant in practice. Accordingly, the Board of Directors at their meeting held on 27th April 2022, have appointed M/s. VJ Talati & Co., Cost Accountants, as Cost Auditor for conducting the audit of the cost records of the Company, for the financial year 2022-23 on a remuneration of

Rs.50,000/- plus taxes as applicable and re-imbursment of expenses incurred by them in connection with the audit.

Pursuant to Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, members of the company are required to ratify the remuneration proposed to be paid to the Cost Auditor.

Accordingly, consent of the members is sought for passing the Ordinary Resolution as set out at Item No.6 of the Notice for ratification of the remuneration payable to the Cost Auditor

None of the Directors, Key Management Personnel of the Company and their relatives, are in any way concerned or interested, financially or otherwise, in the resolution

The Board of Directors recommends the Ordinary Resolution set out at Item No.6 of the accompanying Notice for approval by the Members.
